- Israel's goal since 1948: Recognition of Jerusalem as Israel's capital
- The original 1947 U.N. partition plan called for Jerusalem to be "internationalized."
- U.S. presidents refrained from moving the embassy to Jerusalem because of commitments to U.N. Security Council Resolution 478, passed in 1980, which rejected Israel's declaration that Jerusalem was its "complete and united capital" because East Jerusalem was territory captured in the 1967 Six-Day War, a war that Israel started.
 - Parties to Resolution 478 committed to withdrawing diplomatic missions from the city.
- U.N. resolution 242 calling for the withdrawal of Israeli armed forces from territories captured in 1967.
- Jerusalem Embassy Act of 1995

Question: Congress may pass the Israel Anti-Boycott Act to punish Americans up to \$1 million in fines & 20 years in prison for economic boycotts of Israel over human rights violations:

Cost to America: US laws protect Israeli actions the world justifiably considers unlawful.

- Yet another complex law mandating the US provide cover for Israel's bad behavior
 - Exports from illegal settlements
 - Exposing corporations investing and operating in illegal settlements
- When the key attributes are explained, Americans overwhelmingly oppose it
- Driven entirely by the Israel lobby's coordinated campaign contribution network—not US economic, humanitarian or popular interests

6.0 Israel lobby initiative: Provoke US confrontations with Iran

- AIPAC and the elite Israel lobby advocacy organizations encourage US attacks on Iran.
- Worked diligently against JCPOA, now want to overturn it.
- The Israel lobby also worked hard for the US to attack Iraq, but did not want the blame if/when things turned out badly.
- The lobby works “behind the scenes” to avoid accountability.
- Counts on leniency when it goes too far.
- December 12 secret MOU for joint Israeli-US actions against Iran

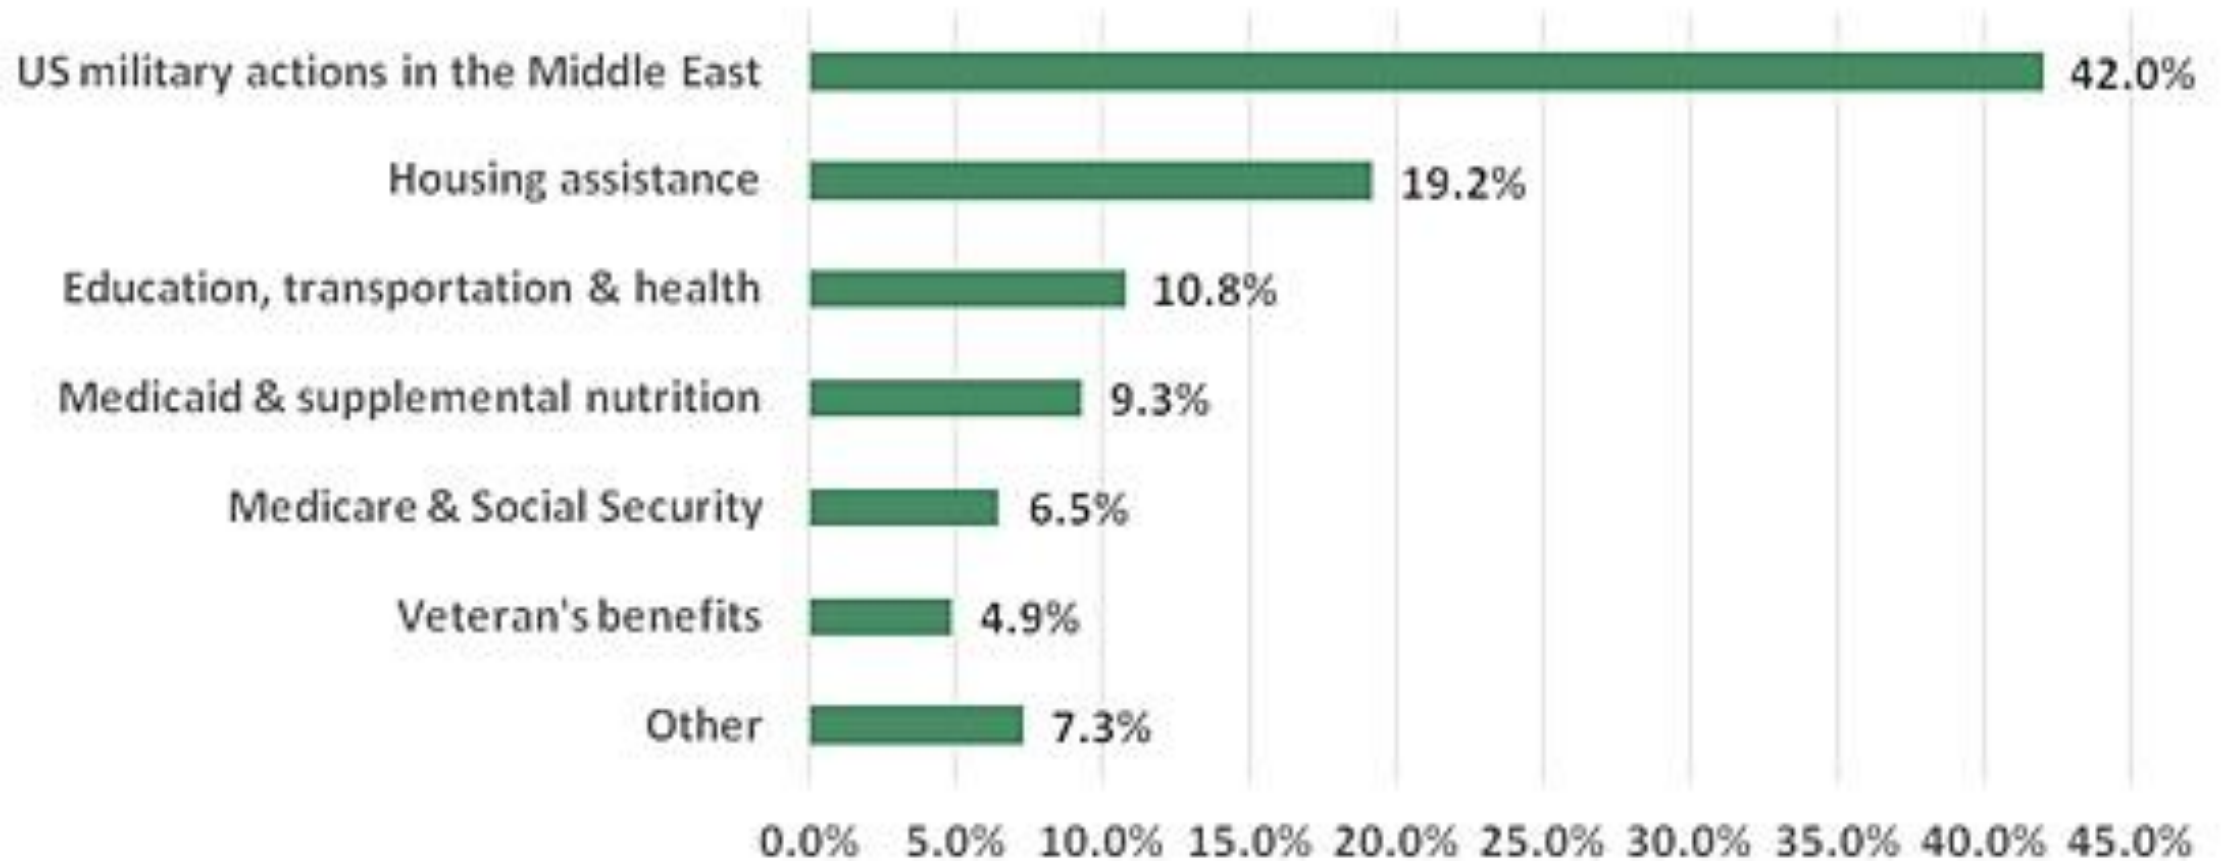

Covert AIPAC action targeting Iran led to the 2005 “AIPAC espionage scandal”

- Two AIPAC staffers and a DoD official shop around purloined national security information.
- Caught by the FBI trying to sell Iran attacking US stories to the Washington Post.
- Col. Lawrence Franklin convicted of a felony.
- Obama administration drops charges against AIPAC staffers.

Question: Which expenditure category should Congress cut to make government more responsive to the American people and reduce the budget deficit?

“Crisis Initiation” is a challenge, according to AIPAC’s think tank, the Washington Institute for Near East Policy – but nautical provocations work

- The analysis of Patrick Clawson, Director for Research at the Washington Institute for Near East Policy:
 - It took Pearl Harbor to get the US into WWII
 - Lusitania sinking to get US into war WWI
 - Gulf of Tonkin to escalate Vietnam war
 - USS Maine explosion to get the Spanish-American War
 - Civil War after Fort Sumpter attacked.
- Conclusion: If Iran refuses to be an aggressor against the US, sinking an Iranian submarine might get Iran to lash out at the US And provide the needed pretext for war.

“It’s very hard for me to see how the United States President can get us to war with Iran.”

7.0 Massive, unconditional federal foreign aid and state funding, secret intelligence aid, tax preferences for Israel

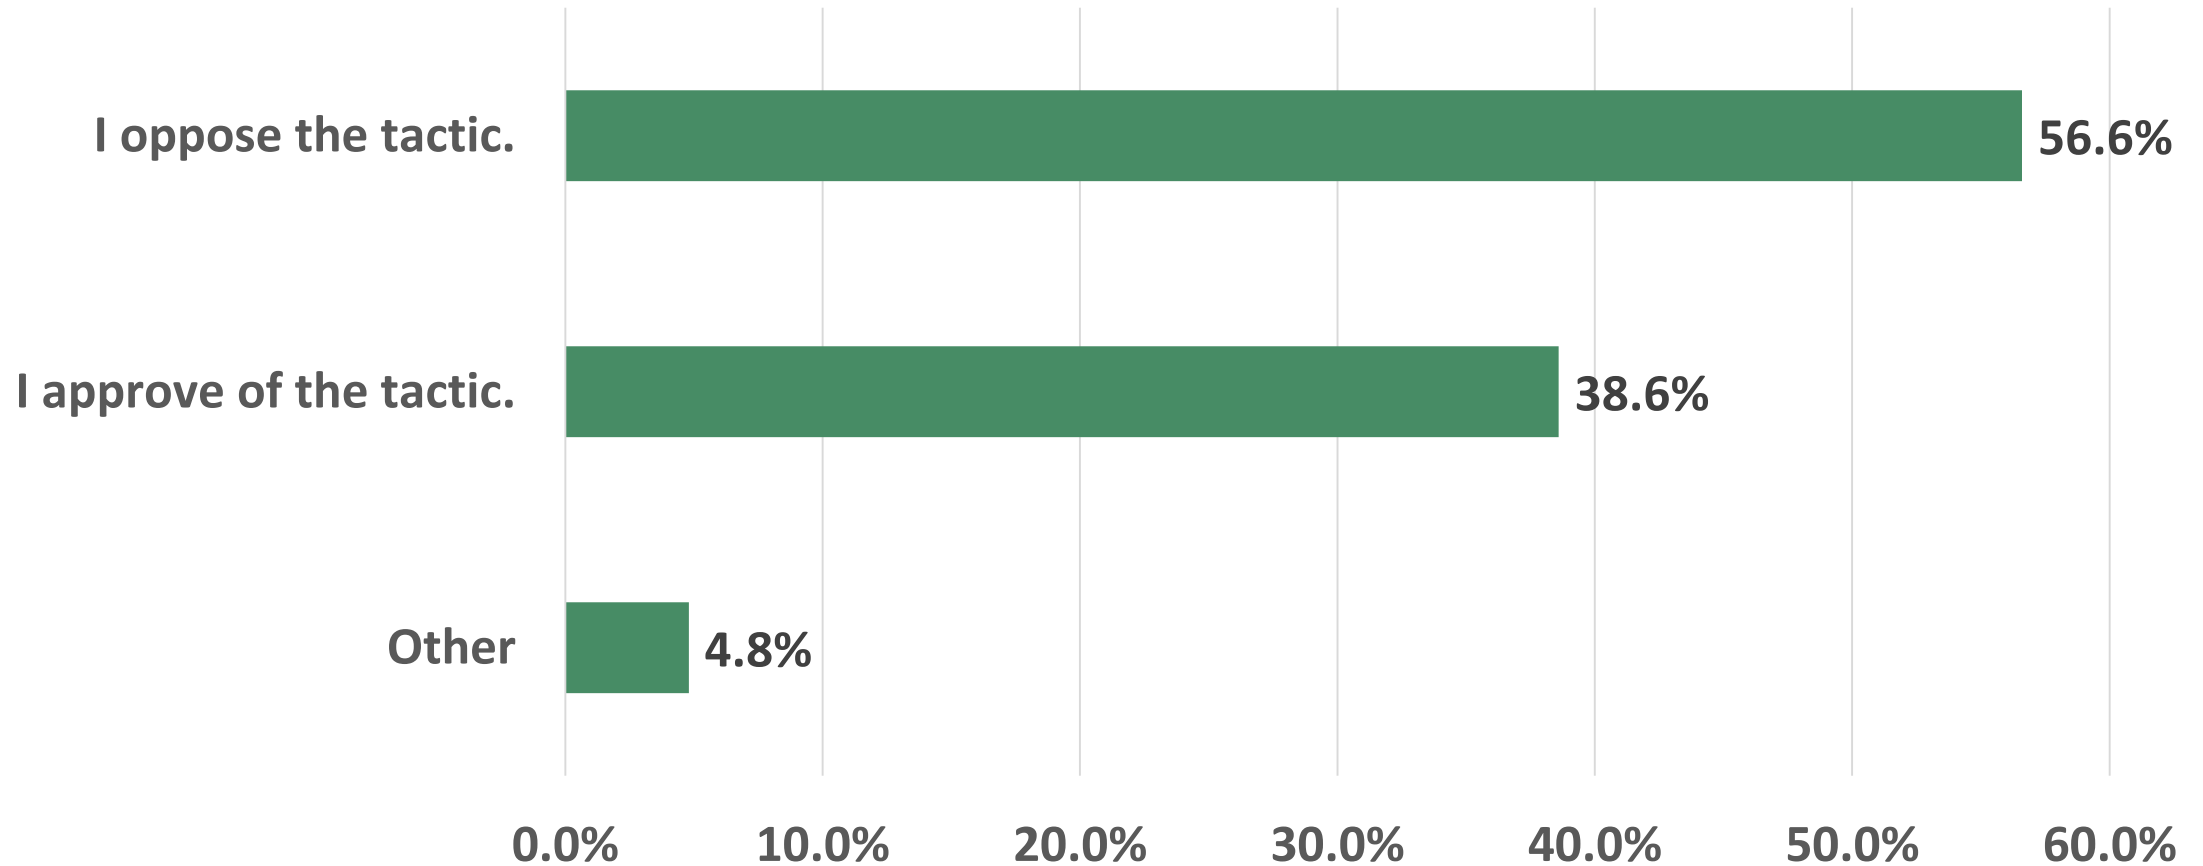

- Federal aid for missile defense, homeland security, water resource development, energy and cybersecurity.
- State grants to build Israel lobby infrastructure and joint programs with Israel.
- AIPAC currently telling members that it will be lobbying for an increase
- Potential new pool of assets: \$24 billion in US AID that could be cut to countries that condemned US Jerusalem recognition.

**Mark Green, Administrator
USAID
Speaking at AIPAC 2018**

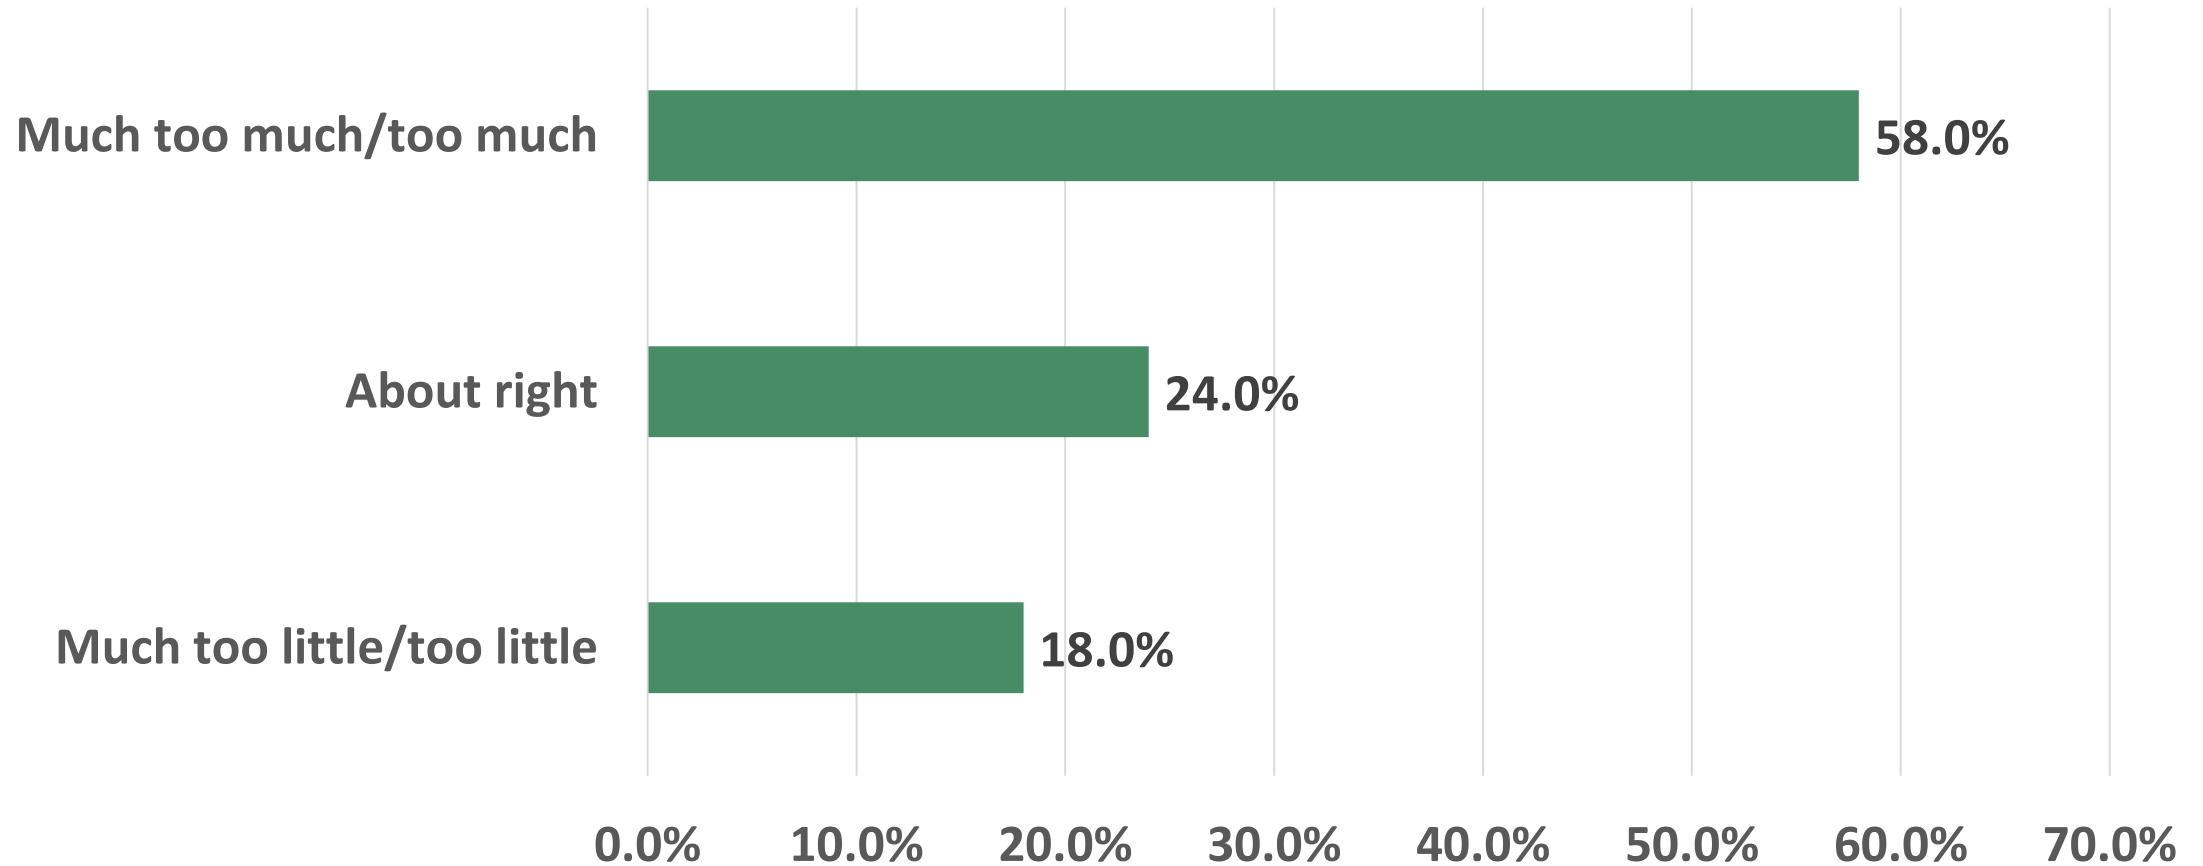

Question: The Trump administration threatened to end foreign aid to any country that condemned its recognition of Jerusalem as the capital of Israel. Do you approve of such tactics?

Question: Israel & its US lobby demanded Congress give Israel over \$250 billion in foreign aid since 1948—far more than any other foreign country or to rebuild post-WWII Europe. It is:
